For Immediate Release

ProGrade® Tube Magnets Separate Contaminants from Dry and Liquid Products

Eriez®, world authority in magnetic, vibratory and inspection applications, offers **ProGrade®** Tube Magnets in various strengths and lengths to remove ferrous contamination from both dry and liquid products. These tube magnets can be used as inspection tools or in areas where conventional grate magnets will not fit. Tubes can also be used for customers to fabricate custom grates for their own unique requirements.

The one-inch diameter (25 mm) magnetic tubes are available in lengths from four inches (100 mm) up to 24 inches (610 mm). They are used primarily to remove ferrous contaminants from liquids in tanks, as a quality control check of dry bulk materials or in various other application settings where a powerful, portable magnetic power source is needed.

ProGrade Tube Magnets are made from 316L stainless steel and have ¼ x 20 UNC drilled and tapped ends. They are offered in three strengths, enabling customers to select the right degree of magnetic strength to suit their application needs.

- **Ceramic** powered tube magnets remove medium to large tramp metal such as bolts, nuts and hand tools.
- **Rare Earth** powered tube magnets remove small ferrous contaminants such as pins, staples and clips.
- **Xtreme™ Rare Earth** powered tube magnets are best at separating out weakly magnetic fine ferrous contaminants.

Eriez is recognized as world authority in advanced technology for magnetic, vibratory and inspection applications. The company's magnetic lift and separation, metal detection, x-ray, materials feeding, screening, conveying and controlling equipment have application in the process, metalworking, packaging, recycling, mining, aggregate and textile industries. Eriez manufactures and markets these products through eleven international facilities located on six continents. For more information, call toll-free (888) 300-ERIEZ (3743) within the U.S. and Canada. For online users, visit www.eriez.com or send e-mail to eriez@eriez.com. Eriez World Headquarters is located at 2200 Asbury Road, Erie, PA 16506.
